

# Spanish Olive Oils

2013 Catalogue

Product references

**Available for Private Label**

# About our Spanish olive oils catalogue...

Spanish olive oil is globally recognized as a premium quality product. Whether your company seeks an original Spanish brand or wish to bottle olive oil in Spain under your own private label, this catalogue is intended to provide an overview of the most common references.

Our bulk oils are expressed in EXW and FOB Incoterms, including the latter the cost of industrial packages needed for transportation; i.e. flexitank, IBC and Drums.

Retail section shows starting prices for olive oil to be produced under your own private label. Prices are FOB Algeciras (Spain) and show the most common packages available : i.e. Bertolli & Marasca glass bottles, PET and Metallic TINS.

Other packages, special features included in your private label, gift boxes or specific qualities might require an extra cost.

Please read the information inside and feel free to contact us with any questions.

# Olive Oil Grades

# About us

MX2 Trading is an active exporter of Spanish olive oils, wines and a variety of foods, known for its high quality products and the highest levels of professionalism in its promotion and execution of import & export transactions.

We are committed to identifying and offering the most competitive supply options and products to our clients, while leveraging our worldwide commercial network to maximize sales.

Our main focus is on **Spanish Food Exports, Private Branding & Brand Promotion**, intermediating to bring buyer and seller together. We use “trading as a service” only, in cases where a multiproduct order recommends purchasing consolidation.

Our most in-demand products tend to be our Spanish olive oils and wines, but we also export a number of other products, with our suppliers maintaining a long tradition on the production of the highest quality Spanish products.

State-of-the-art food processing factories empower our ability to offer the best quality at competitive rates for other products such as: canned fish & seafood, Spanish Serrano Ham & Ibéricos, preserved fruits & vegetables, fruit juices, olives and pickles, Spanish traditional recipes ready-to-eat...

Our team will be more than happy to assist you with any questions regarding products in our catalogues.

The background of the entire image is composed of numerous translucent blue ice cubes of various sizes and shapes, scattered across a white background. The ice cubes have sharp edges and facets, reflecting light in a way that gives them a three-dimensional appearance. They are arranged in a way that frames the central text, with some cubes overlapping each other.
